THE WAY OUT.

Change of Food Brought Success and Happiness.

An ambitious but delicate girl, after failing to go through school on account of nervousness and hysteria, found in Grape-Nuts the only thing that seemed to build her up and furnish her the peace of health.

"From infancy," she says, "I have not been strong. Being ambitious to learn at any cost I finally got to the high school but soon had to abandon my studies on account of nervous prostration and hysteria.

"My food did not agree with me, and I grew thin and despondent. I could not enjoy the simplest social affair for I suffered constantly from nervousness in spite of all sorts of medicine.

"This wretched condition continued until I became interested in the letters of those who had eaten like mine and who were being helped by eating Grape-Nuts.

"I had little faith, but procured a box, and after the first dish I experienced a peculiar satisfied feeling that I had never gained from any ordinary food. I slept and rested better than night and in a few days began to grow stronger.

"I had a new feeling of peace and restfulness. In a few weeks, by my great joy, the headache and nervousness left me and life became bright and hopeful. I resumed my studies and later taught ten months with ease—using Grape-Nuts every day. I am now the mistress of a happy home, and the old weakness has never returned."

Of a mechanical turn of mind, he invented a steam governor, named after himself, which became known throughout the world. Forming a partnership with a brother, for years a machine shop was conducted at 502 Railroad avenue. In addition to the Matson governor, other specialties in the mechanical line were manufactured. CHARITIES ASK FOR DONATIONS

HEAVY DRAIN DURING WINTER
LEAVES ORGANIZATION WITH-
OUT ARTICLES.

The Associated Charities finds itself in a condition which it seems powerless to help unless the people of the city come at once to its aid. The society is without clothing with which to supply the needy poor of the city and every day women and children absolutely in need are turned away because the association is unable to relieve them. During the winter the demand upon the association has been exceptionally heavy and thousands of articles of clothing have been given away without a cent of cost to the recipient, for it is not a sales organization. This drain upon the supply of articles has left the house empty of clothing and it seems next to impossible to replenish it.

This condition has been brought about largely, too, because another organization has recently come to the city and is making a house to house canvass for articles of clothing. These are collected for charity, but are taken to a room in the business section of the city where they are sold for what they will bring. Undoubtedly many people of the city have given to this organization under the impression that the articles were to be given away to the poor, and are not aware that they are to be sold. The Associated Charities must have articles of clothing suitable for this season of the year and especially are shoes and clothing for children needed. If those who have such articles will telephone the Association they will be sent for as soon as possible.

Fred W. Rinck, who has served the association as secretary, has left to take up his duties at Springfield and his place will not be filled for the time being, the work that he has been doing to be undertaken by the advisory committee.

At the monthly meeting of the board of the Associated Charities held last evening tag day plans were discussed and a committee composed of Miss Mary Carter and Mrs. Nora Whisler was appointed to confer with the King's Daughters as to whether to con-

TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens so Naturally No body Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides, prevents dandruff, itching scalp and falling hair.
